im going with a group of friends for a barbecue later today. the sun's out and were heading to the beach.

im the only veggie in our group, so i wont be eating what they are, but i don't want to feel totally left out. is there anything apart from veggie burgers you can recommend ?

i don't like quorn or soya.

thanks.

I was a veggie too until i got pregnant. Like you i was the only one in a group that was veggie and always felt a little left out at BBQ. My own favourite was vegetable kebabs, usually some courgette, onion, butternut squash and peppers. Also corn on the cob is nice with a bbq.

#### **Samantha D Answered:**

What about Frys? They have vegetarian sausages that are delicious! You could try BBQing vegetables, eggplant is delicious!

#### **Butterflies Answered:**

Do vegetable kababs using mushrooms, courgette, cherry tomatoes, aubergine and sweet potato
