What can be the cause of my nausea? NOT pregnant.?

Roselyn Cazares Asked: What can be the cause of my nausea? NOT pregnant.?

I've been with constant nausea and constipation since early December. I've obviously had my period throughout those months so I KNOW I'm not pregnant.

My appetite is not the same, I don't eat as much.

I'm a vegetarian, but that's since the 14th of March, but it's kind of worsened the nausea.

I do feel kind of fatigued, stressed, and sad.

I am over weight, have gastritis, & and had anemia. So, any clue on what might be causing this?
